

HOLLOW ANGLING SOCIETY

BANKSIDE - ON - LINE – 22

11th January 2012

Happy new year to you all

A.G.M. 7th Feb 2012

That is four Tuesdays away. Your chance to vote on the committee and motions.

Only one motion has been put forward.

Discontinue monthly meetings, as poorly attended and the 'on-line-magazine' keeps members informed better and quicker than meetings.

Work parties

This Sunday sees the first of the work parties. It will be at Woodlands lake, Forty hall.

The start is 8am meet at the lake or if you are early walk to the gate at the end of the road and blag a lift down if you are lucky. I will be going down around 7.30 with tools.

To fish either Passingford, Paradise or Woodlands during MAY you must work at a work party see page 10 of the current Handbook

Phone to book yourself into any work party, and to discuss any tools you may have that will be useful. There are limits on numbers on most work parties.

Boots, gloves, drink needed and I suggest soap and towel.

Make sure you book in with me on arrival to get your May fishing ticket.

Outings/matches

We are getting near the end of our 2011/12 season. The new season starts on 1st April most of the venues in 2012 are booked starting with Alders farm. If you are interested in joining in ring me you will be made most welcome you will find that we are all friendly and very willing to share any knowledge we have as we visit different venues.

Our main aim is to enjoy a day out fishing with a few laughs along the way.

Fishers Green

Another 200 juvenile Barbel have been stocked into the river.

The forecasted rain did not come to much the river came up a foot overnight but it only lasted a few hours and within 36 hours it was back clear and low.

Our Chairman not a usual pike angler found a 14lb Pike from the pits on his first try.

Turnford

A bit slow since Christmas on the carp front but a few Pike coming from Boot and Marsh.

Paradise pond

The recent rain has helped with the water level but we still need more to bring it up to the top of our new dam.

On one warmer day a member found a few of the Carp mainly small but one of 6lbs.

Passingford

We are now sorting the restocking of the pond. Various sources are being contacted to obtain what we want hopefully we are still aiming for late March when the weather should be improving giving the fish a better start.

Forty hall

Now closed until 1st April. Work parties here this Sunday and 29th Jan details above.
