

# **HOLLOW ANGLING SOCIETY**

## **BANKSIDE - ON - LINE – 23**

26<sup>th</sup> January 2012

---

### **A.G.M. 7<sup>th</sup> Feb 2012**

Tuesday week. Your chance to vote on the committee and motions.

### **Work parties**

This Sunday sees the second of the work parties. It will be at Woodlands lake, Forty hall. The start is 8am meet at the lake or if you are early walk to the gate at the end of the road and blag a lift down if you are lucky. I will be going down around 7.30 with tools.

To fish either Passingford, Paradise or Woodlands during MAY you must work at a work party see page 10 of the current Handbook

Phone to book yourself into any work party, and to discuss any tools you may have that will be useful. There are limits on numbers on most work parties.

Boots, gloves, drink needed and I suggest soap and towel.

Make sure you book in with me on arrival to get your May fishing ticket.

### **Outings/matches**

Two matches left in this season. Arrons on the 5<sup>th</sup> Feb and Pea lane on the 19<sup>th</sup> Feb Our main aim is to enjoy a day out fishing with a few laughs along the way.

### **Fishers Green**

Tuesdays' rain should give us some colour and flow. Good for the Chub and Barbel.

### **Turnford**

Still slow except for Pike. Unfortunately no one seems to be going for the bream that go to double figures, in Railway and Lea pits. There are also good Roach

### **Paradise pond**

No reports of anyone fishing but the water level is coming up albeit very slow.

### **Passingford**

Struggling with getting the right size of fish, many suppliers have very small fish but they are only any good for two or three years on. If anyone gets to hear of fish half pound upwards please give me a ring.

### **New river**

Like all the rivers it has been very hard during the summer with the low levels and gin clear water, but this could improve if only for a couple of days with the rain and the weed dying off. Trot well down or cast a small bomb well down or up river. Keep well back from the sight line of the fish. Fish light and fine, bread flake or small worm.

### **R.S.A. Relief channel**

Much the same applies to this stretch as the New river except that you don't have to worry about keeping back. Barbel to 12lb and Carp to 17lbs have been taken 60yds or so below the bottom weir where the river deepens up a bit.

### **Forty hall**

Now closed until 1<sup>st</sup> April. Work parties here this Sunday details above.
