Fisheries

Turnford. 34 & 36lbs banked not sure of anymore unreported hook ups

Woodlands Has seen lots of good carp to 19lbs banked the weather stopping more anglers on the bank.

Paradise.

The water is right up to the top and flooding over the dam which is good for when the dry weather puts in an appearance unfortunately the weather changes have unsettled the fish and fishing has been slow. The water has gone from clear to thick and muddy.

While putting up three new benches on Tuesday carp were cruising all around.

Passingford as reported in the last issue we have been unable to progress with stocking, it looks like it will now be wintertime before we can move in fish.

Guest tickets purchased for Passingford this season will be valid for next season.

Fishers green The lakes have produced Tench but they are still very under fished

Lea Relief Channel. R.S.A. Tickets are ready for those that think they may fish there. See Handbook page 39.
