BANKSIDE - ON - LINE – 36

24th May 2012

June meeting

As our planned meeting date falls on the new public holiday, the meeting will now be on the following Tuesday 12th June

Fisheries

Turnford. The warm weather is just what the doctor ordered to get them moving, several on Railway and a 28 from Boot.

Woodlands Has seen lots of good carp to 20lbs banked. A few anglers are targeting the Roach and whilst not finding the big ones are catching up to 12 oz fish. The secret is three or four maggots every 30 secs fired over the float, but beware Carp love maggots too.

Paradise.

The water is right up to the top of the dam which is good as we may have started the summer! Several members have fished it with varying success. Corn or pellet putting a 'few' micro pellets or corn in and fishing over them. These fish don't seem to be bothered with hugging the island like the older residents midwater seems to produce, I had four in three hours late afternoon up to 8lbs swim 10 plus several Crucians fishing dead depth 4mm pellet tight to the small lily patches just showing.

Passingford as reported in the last issue we have been unable to progress with stocking, it looks like it will now be wintertime before we can move in fish.

Guest tickets purchased for Passingford this season will be valid for next season.

Fishers green The lakes have produced Tench but they are still very under fished

Lea Relief Channel. R.S.A. Tickets are ready for those that think they may fish there. See Handbook page 39.
