BANKSIDE - ON - LINE – 39

26th July 2012

Passingford

Despite the lack of help from those that said they were available during the week, the dam is in, we now await the rain coming back.
Consultation is being sort as to stocking levels and species

Paradise

Just got home to find a message that the extra fish for Paradise will be arriving at 11 am tomorrow [Thursday]
We have £1000 of fish being delivered which should kick start the existing stock into feeding

Turnford

At the committee meeting we discussed the loss of a few large Carp. Gary from the Parks assured us that the recent weather had not helped coupled with the age of some of the fish. Added to the age of the fish was the fact that they had been caught several times and in some cases may not have been handled as good as they should or had been out too long.

If you are planning to photo your catches please ensure you set up your camera before any catches are made. If you have not got one you can get a screw adapter that fits a bank stick and the screw thread in the base of most good cameras. Set the bank stick up to take your unhooking mat in view so that you just have to spin on the camera set the timer and hold the fish just off of the mat, no higher.

Woodlands lake

This Sunday 29th is the inter club match.

We have a good team planning on retaining the two trophies we won last year. One for individual top weight and the team trophy, winning four out of the five sections and a second in the other

That's all folks its late and I have to arrange things now for Paradise tomorrow morning.
